Myles Noton

Education & Qualifications

- 2005 – Present Kingston University, London
BSc (Hons) Computer Science with Digital Imaging
2006 (Year 2 Semester 1) Study Abroad Exchange program at University of North Carolina
Charlotte (UNCC), USA
- 2003 – 2005 Westlands Sixth Form, Devon
AVCE Information Communication Technology 12 Unit (A/A)
A-Level Business Studies (E)
- 1998 – 2003 Westlands School, Devon
GCSE'S: (6 Grade C's including AVCE ICT and English)

Work Experience

- 2008 - 2009 KODIME Ltd, Kingston
Consultant
- After completing my placement I was asked back KODIME Ltd to provide them with consultancy services on an ad-hoc basis during my final year at university. Whilst there I have also completed a Google Maps integration project for their products.
- 2007 - 2008 KODIME Ltd, Kingston
Junior Platform Manager
- I worked at KODIME as part of my placement year during university. While there I learned a variety of different skills, including dealing with clients, team work and project management. My main duties were handling technical support queries and product training for clients as well as the maintenance of the company's website. I also performed various tasks for other departments such as client services: setting up client campaigns and accounting: making revenue statements and monthly sales reports.
- I have also worked several times at KODIME since my placement ended to assist them when they are short staffed and need extra assistance.
- 2007 - 2009 Kingston University, London
Student Ambassador for the Faculty of Computing, Information Systems and Mathematics
- As a student ambassador I am responsible for talking to prospective students on open days and answering any questions they had about the course and the university in general, these are both on a one to one basis and can also be as part of panel style discussions with parents and students. I was selected because of my experience over in America and was able to give them a greater understanding of what the course involved. Some of my other duties include helping out at faculty events and helping out during the tours of the building and interviews, I have gained valuable people and communication skills during this time.

Additional Experience

- Created my own portfolio website, a website for a local holiday business called Crossways and Sea View and an unofficial fan site dedicated to the TV channel ABC1.
- Experience with Object Orientated and procedural PHP Version 4 & 5
- I have acted as technical support at a number of events for work and college
- I have 8+ Years of Experience with Information Technology

Technical Experience

Applications that I am experienced in are Microsoft Office, Adobe Photoshop, Visual Studio, Zend Studio and SQL Server. Programming languages which I am fluent in are Object Orientated PHP, XHTML, CSS, MySQL and XML. Languages that I am currently learning are JavaScript and JQuery. I have experience in building my own computer systems and diagnosing and repairing hardware faults, I have also setup and managed a variety of wireless and wired networks.

Interests

I am a keen amateur photographer and use my spare time to take photos of events and various locations. I try to stay ahead of the curve and learn about new technologies as they come out to keep my knowledge of the industry fresh and up to date. Since studying in America I have become more interested in travelling and hope to visit more countries in the future, as well as travel around the UK. I also take an interest in politics and current affairs.
